

## Price list information

### **Price lists are a guide**

All the prices displayed in the following price list are a guide only. A final and accurate price can only be given during a consultation.

### **What do the prices include?**

The prices shown include the hair, the fitting, cutting & styling. The only extra costs are aftercare products if you wish to purchase those.

### **Can you give me an exact quote via messages?**

Unfortunately we can not provide an accurate enough quote via message. We need to be able to examine your hair and determine the safest and most effective method for you.

### **Can I pay monthly?**

Currently PS Hair Extensions Limited do not provide monthly payment options. We take 50% of the total cost during your consultation appointment. The remaining 50% is paid on the day of your fitting.

# COMBINATION METHODS

Mixing methods to create a perfect blend

Combination methods are used when we feel this would benefit your hair more than just one method. We adjust every single fitting according to each individuals needs.

The most common reasons we would use a combination of methods is because of your day to day activities, your hair type or simply how you prefer to style your hair.

Quotes can not be given without a consultation as there are far too many combinations.
